

ANUBHAV™ is planned to relocate the study of environment to its rightful place enhancing the Curriculum of classroom learning. The outdoors becomes a living laboratory for the learners in understanding the elements of nature available in and around us. The nature study conceived here is not so much about the learning of names and classifications but giving an inexplicable experience that would become a continuous process of learning.

The programme also aims to develop the ability to weave a story from a drop of water, to sense an adventure from the silver ribbon left behind by a passing snail, to wonder and watch with admiration the gliding and turning of the gull in flight, and to interpret the coming storm by the shape and movement of the clouds. Inherent in ANUBHAV™, then, is the desire to halt and watch, to study and to correlate what one sees with the milieu in which one finds it.

Class wise places are fixed like

Class II - Vasad Revines

Class III - Vadali

Class IV - Jambughoda

Class V - Little Rann of Kachchh (Zainabad)

Class VI - Parvati hills

Class VII - Marines of Mithapur

Class VIII - Mount Abu

Class IX - Greater Rann of Kachchh

Class X - Dang
